

Refining Separator Series RCYG

RCYG series refining separator can separate iron powder among materials, widely used in coal, fireproof material, ceramic, chemical, cement, building material, grain industry and ect. And it is profitable to discharge dregs and keep equipment run normally. Its obvious effect is special for some round and small material such as small nuts and screws, small steel balls and ect. It is the best separator with strict requirement and good performance.

Main technical data

Model	Production rate T/h	magnetic field strength Gs	driving motor power KW	voltageV	installation angle	rotatory speed r/min	Mass (kg)	(mm) overall dimension		
								L	W	H
RCYG-50	≤50	≥4000	1.1 KW	380	50°~60°	17-82	800	1200	1200	1000
RCYG-100	≤100	≥4200	1.5KW	380	50°~60°	17-82	1100	1560	1350	1200
RCYG-200	≤200	≥4500	2.2KW	380	50°~60°	17-82	1300	1850	1490	1300
RCYG-300	≤300	≥4500	3KW	380	50°~60°	17-82	1450	1980	1590	1400
RCYG-400	≤400	≥4500	4KW	380	50°~60°	17-82	1600	2100	1670	1500
